

Key Values

- * To develop a healthy mind and body.
- * Working together to achieve!

Curriculum outline for Year 4

Tuesday 30th October - Friday 1st December 2017

Gulp!

A study of the human body, digestive system and teeth

Power of Reading

For the next 7 weeks we will be studying a new book during Power of Reading. During this time, we will be creating pieces of art work and participating in drama sessions to immerse ourselves in our new book.

Reading

Even though we no longer expect written diary entries, we would still like children to log their reading. If your child is still on banded books, then we expect the children to be reading to an adult at home 3-4 times per week.

Handwriting

We will continue to practise our joined cursive writing and expect children to be using this in all of their writing.

Maths

After half term, we will be learning to tell the time and convert between analogue, digital and 24-hour clocks. We will also be studying short multiplication and we will continue to be practising our times tables.

Challenge yourself at home:

it's cool to be clever!!

- * Try planning and preparing a healthy meal for your family!

Homework Task

Research the work of a famous doctor whose contribution changed medical history

As part of our PE sessions we will be discussing healthy eating and nutrition and the importance of exercise in our lives. The children will explore fitness and circuit training in sessions.

We will be learning about:

During this experience, we will be exploring different aspects of the human body, including the function of teeth and the digestive system. We will also focus on bones and the skeletal system, and the function of muscles

In our Science sessions we will be using our observations to answer relevant questions, setting up practical enquiries and looking at the importance of fair-testing.
